

The University of Hertfordshire Agricultural Substances Database: Price List

The PPDB team at the University of Hertfordshire offer a number of additional services which are available for purchase at a competitive price (the University of Hertfordshire reserves the right to amend these prices at any time), including:

- **Any of our databases available in MS Access or MS Excel formats:** Subject to a licence agreement, these can be acquired for personal or business use.
- **Additional data:** As well as the data presented on the PPDB, BPDB and VSDB websites, the University of hertfordshire has collated significant additional data resources. These are detailed below.
- **Bespoke search and analysis services:** These provide you with a report specifically tailored to your needs. To access this service, please contact us with your requirements and we will provide you with a quotation.

MS Access & MS Excel Databases

The process quoted below relate to databases purchased for research purposes (i.e. those who will not be making commercial use of the database). For a quote for integrating the PPDB into commercial applications, or if you feel that your specific needs are not represented by the process below, please contact the team (contact details below), who will be pleased to discuss your needs with you.

Basic prices - no discounts (single user)

Database	Full database	Single data group (e.g. fate)	Single data type (e.g. vapour pressure)
PPDB	£700	£350	£70
BPDB or VSDB	£350	£175	£35
BPDB & VSDB (2 nd database ½ price)	£525	£263	£53
PPDB & VSDB / PPDB & BPDB (cheapest database is ½ price)	£875	£438	£88
PPDB & VSDB & BPDB (cheapest 2 databases ½ price)	£1050	£525	£105

Note: VAT is charged on all prices when applicable.

In each case the price normally includes upgrades on a quarterly basis for a year (i.e. purchased database plus three updates); however, more frequent updates can be arranged for a small fee dependent on individual requirements.

Multi-user and/or multi-site licenses

Licence	Price
Single site, < 10 users	Above prices x 1.5
Up to 5 sites, up to 10 users per site	Above prices x 2.2
Unlimited sites, unlimited users	Above prices x 3.6

Note: VAT is charged on all prices when applicable.

Multi-year purchases

We offer a discount of 25% for any additional years purchased up front. For example:

Licence	Years bought	Price	Discount
Full PPDB	2	£1225	£175
PPDB & BPDB	3	£2187.50	£437.50

Note: VAT is charged on all prices when applicable.

Additional data sets

The additional data held by the PPDB team covers:

- **Soil degradation:** The more detailed data covers DT50 by soil type, pH and organic carbon for both lab and field studies (where such data is available).
- **Soil adsorption:** The more detailed data includes K_{oc}/K_{foc} plus related parameters, by soil type (sand/silt/clay distribution as well as structure type), pH and organic carbon content.
- **Plant matrix degradation:** The more detailed data includes DT50 by crop/plant/tree type and matrix (fruit, leaves, foliage, rind, peel, tuber, etc.).

This data can be purchased either in a stand-alone format or as an addition to the full PPDB (at a 40% discount), so:

Licence	Stand-alone price	With Full PPDB (40% discount on extra data)
Any 1 extra dataset	£250	£850
Any 2 extra datasets (2 nd dataset ½ price)	£375	£925
3 extra datasets (2 nd and 3 rd datasets ½ price)	£500	£1000

Note: VAT is charged on all prices when applicable.

Commercial exploitation

The above process do not allow the MS Access or MS Excel versions of the database to be exploited for commercial gain; however, the PPDB team are happy to discuss the options available for doing so. It is not possible to provide a definitive price here, as every case is different, so please contact the team to discuss your needs.
